INNOVATION FROM DENMARK

NOVA 12K

Extremely powerful 12,000 lumen COB LED work light with BLUETOOTH light control

ORIGINAL SCANGRIP
SINCE 1906

NOVA 12K provides up to 12,000 lumen, making it THE work light for even the most challenging and demanding working operations.

Compared to the previous version, **NOVA 12K has been upgraded from 10,000 lumen to 12,000 lumen**, providing extremely powerful illumination. The light dimmer function makes it possible to adjust the light into five different levels.

The NOVA design is elegant, with an integrated carrying handle and a new stand for direct mounting on the SCANGRIP TRIPOD. The sturdiness of NOVA 12K makes it endure the rough, wet and dirty environment at the construction site, and can be used for outdoor work under all kinds of weather conditions.

The unique COB LED technology delivers extremely high light output, with a uniform and completely even illumination. The CRI value is close to that of daylight, and the NOVA housing is made of a robust diecasted aluminum, resistant to strong strokes, shocks and vibration – perfect for a working environment.

With the integrated BLUETOOTH light control feature you can easily control up to four work lights. BLUETOOTH light control also makes it possible to turn on/off the lamp and adjust the light output to suit the work task in question. The BLUETOOTH light control application is perfect when working with one or more hard-to-reach lamps, for example positioned on the SCANGRIP TRIPOD.
