

LINE LIGHT 2-POST

LINE LIGHT for 2-post lifts and mobile column lifts

ORIGINAL
SCANGRIP

SINCE 1906

MADE IN DENMARK

LINE LIGHT 2 POST is a universal all-in-one lighting solution which fits all 2 post lifts and mobile column lifts regardless of type. It becomes an integrated part of the lift and is easy and uncomplicated to mount. You avoid drilling in the lift construction and get a completely flexible lift lighting solution, always available at hand and ready to use when needed.

Compared to the previous version, **LINE LIGHT 2-POST has been upgraded from 600 to 1250 lumen**, and is much more powerful than traditional 36W fluorescent tubes. It has a built-in prism that focuses the light in a 75° beam angle. This means that the lamp can be turned to provide the optimum lighting angle and illuminate the entire work area without blinding the mechanic.

It is constructed by a closed extruded acrylic profile (PMMA) with built-in prism containing a LED PCB and end-covers in black anodized aluminium. It is extremely sturdy, shock- and water-proof (IP67) to resist wet and dirty workshop environment. The technical lifetime of LEDs is at least 100,000 hours.

LINE LIGHT 2 POST consists of 2 pcs LINE LIGHT 75 lighting units with 96 SMD LEDs, ø25x770mm incl 8m cable, a 25W power supply with 5m cable and the LINE LIGHT dimmer. Due to the 5m spiral cable, the lamp can easily be used for illumination around the entire car, or as a dedicated lamp for engine bay or wheel arch illumination.

- Fits all 2-post lifts and mobile column lifts regardless of type
- Designed to be mounted on existing lifts
- Integrated part of lift
- Easy and uncomplicated to mount
- No drilling in the lift construction
- Incl. STEPLESS DIMMER function
