

LINE LIGHT 4

4 LED lighting units for automotive lifts

LINE LIGHT 4 is for universal application on 4-post lifts providing you with bright illumination exactly where you need it.

With 4 complete lighting units the LINE LIGHT 4 is the perfect lighting solution for automotive lifts, providing an extremely powerful illumination of the entire undercarriage. Compared to the previous version, **LINE LIGHT 4 has been upgraded from 1400 to 2750 lumen.**

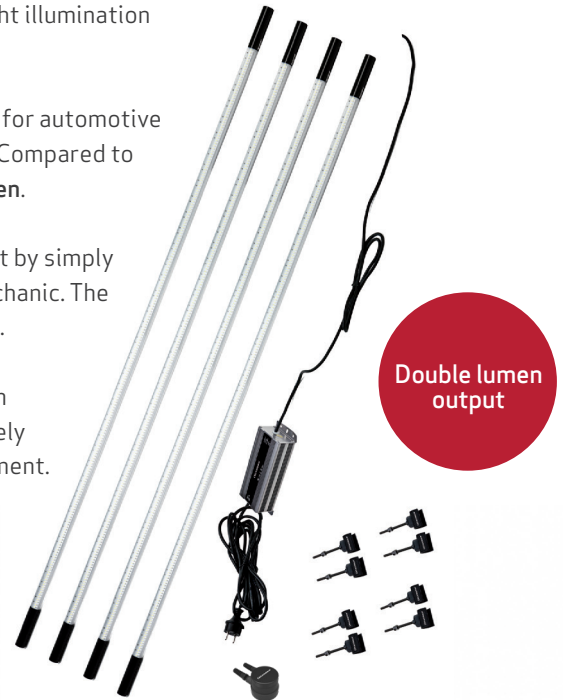

It has a built-in prism that focuses the light in a 75° beam angle. This means that by simply turning the lamp, it can illuminate the entire work area without blinding the mechanic. The slim and compact design (only Ø25mm) leaves space for the center jack to pass.

It is constructed by a closed extruded acrylic profile (PMMA) with built-in prism containing a LED PCB and end-covers in black anodized aluminium. It is extremely sturdy, shock- and waterproof (IP67) to resist wet and dirty workshop environment.

LINE LIGHT 4 consists of 4 lighting units 1630mm incl 80W power supply unit, 8 m cable, the LINE LIGHT DIMMER and complete suspension fittings. With it's low voltage (24V DC) system the LINE LIGHT 4 can be installed by yourself.

The pre-defined LINE LIGHT kit is considered universal and will fit the majority of all automotive 4-post lifts, regardless of the manufacturer or brand.

- "Unbreakable"- extremely sturdy and shockproof
- Waterproof to resist wet and dirty workshop environment
- Low voltage 24V DC
- Technical lifetime of LEDs 100.000 hours
- Made in Denmark
