OASI

A WARM AND STYLISH ATMOSPHERE

Whenever it is there, your space is lit up with new emotions.

It's OASI, the brand-new Infrared Radiant heater by Radialight.

The Smart solution, refined in Design and with ultramodern technology that will perfectly heat your space.

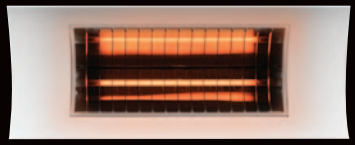

Thanks to the Dual-Element Radiant heating system IR-B carbon, the low Glare infrared waves generated by OASI provide energy-efficient warmth to your indoor or outdoor spaces blending seamlessy into your property's architectural style.

Enjoy all year round the warm, soft and Low Glare light that really makes the difference.

OASI pole mounted heats effectively and comfortably up to 8 sqm

ELEGANT AND COMFORTABLE SPOTS

OASI's Mid-wave infrared radiation provides a constant, direct and homogenous heat flow to your spaces.

No annoying glow, highly tolerable, care for your skin. And it is much more comfartable than the traditional halogen heater.

Simply the perfect mix of immediate heating effect and reduced brightness, to get more enjoyment out of your outdoor or indoor spaces, without interfering with the already existing ambient lightning atmosphere.

OASI Low Glare heaters that integrate LOW GLARE IR-B Carbon heating Technology: energy-efficient warmth and less light.

OASI wall mount is the perfect solution for patios, terraces or al fresco dining spaces

SAVINGS AND VERSATILITY ARE JUST A CLICK AWAY

OASI Remote (sold separetely) allows you to customize the comfort level on different zones of your commercial space in order to minimize electric consumption with the least effort.

A simple and smart wireless control interface that gives you the possibility to adjust comfort of up to 6 heaters independently with just one remote control able to regulate intelligently the internsity of heat depending on the needs of each space.

Ideal even for bigger areas, OASI Remote enables significant energy savings with the ability to adjust 2 differents Power settings (1000W or 2000W) on each heater within a 20 meters range.

Whether it is a stylish club, a sleek restaurant or a modern restaurant patio, OASI blend seamlessy in each environment, providing a direct radiant and effcient warmth on each zone, thanks to the multiple mounting options:

- Wall mounted, with the included wall bracket
- Ceiling mount, directly above the desired heating area
- Pole mounted (sold separetely), installing up to 2 heaters on each pole
