

MAG PRO

Multipurpose and rechargeable LED work light

The MAG range is Europe's most bestselling work lights. Taking advantage of the latest high performance LED technology, the new MAG PRO provides significantly improved light output, battery upgrade and even more functionality.

MAG PRO replaces MAG 3 (03.5401) and is upgraded with a stepless dimmer function in the range of 10 % to 100 %. Compared to the previous MAG 3 the lumen output is double and protection class has been upgraded to IP54. New design with battery indicator on front.

MAG PRO is made for efficient workshop operation through complete flexibility using the three strong built-in magnetic holders and the two retractable suspension hooks. This provides for flexible placement of the work light wherever you need it. The modern design of the MAG PRO offers an ergonomic and user-friendly grip, and the flexibility of the lamp head allows tilting up to 180 degrees.

The MAG series consists of universal and powerful multipurpose work lights that all professional users must have!
