

MINI MAG PRO

Small rechargeable LED work light

ORIGINAL
SCANGRIP

SINCE 1906

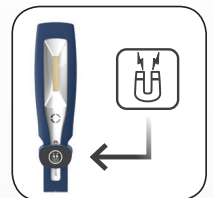

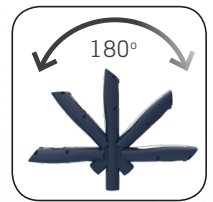

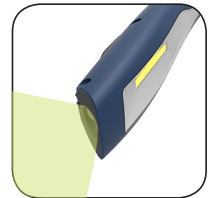

MINI MAG PRO is a pocket-sized version of the popular MAG bestseller, providing significantly improved light output, battery upgrade and even more functionality.

MINI MAG PRO replaces MINI MAG (03.5403) and is upgraded with a stepless dimmer function in the range of 10 % to 100 %. Compared to the previous MINI MAG the lumen output is higher and protection class has been upgraded to IP54. New design with battery indicator on front.

The MINI MAG PRO comprises extremely powerful, rechargeable LED work lights and flashlights in one containing the latest, high performance LED technology.

The new and modern design of the MINI MAG PRO provides an ergonomic and user-friendly grip. Place anywhere you want with the strong built-in magnetic holder and the retractable suspension hook. The lamp head is flexible and tilts up to 180 degrees.

- Small and handy
- Stepless dimmer function
- New rechargeable battery technology
- Battery indicator at the front
- Designed for professional work
- Easily recharged with USB cable

Stepless dimmer
10-100%
