

UNIFORM

Multifunctional COB LED inspection work light

ORIGINAL
SCANGRIP

SINCE 1906

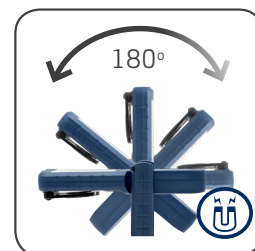

The next generation of the UNIFORM work light provides an even more powerful and completely uniform illumination ideal for work light operation.

UNIFORM has been redesigned to feature an efficient spotlight and a slimmer design. In addition, the light output is improved by 50 % and a redesigned charging base makes wall mounting easier.

Place the lamp everywhere you want during inspection work with the turnable sturdy hook or the strong built-in magnet on the backside.

The hook is also designed to fit the work belt. UNIFORMs flexible lamp head tilts up to 180 degrees and the shape and surface of the lamp provides a comfortable, ergonomic grip, and the compact design of the lamp makes it convenient to carry it around in the work belt - always at hand when needed!

An intelligent battery indicator at the front keeps you informed about the UNIFORM battery level and the lamp comes with a two-step operating system: Step 1 = 100%, step 2 = 50% light output.
