

LINE LIGHT R

Rechargeable inspection hand lamp with top spot light

LINE LIGHT R is an extremely powerful inspection light and flashlight in one. LINE LIGHT R is sturdy and endures even strong strokes and shocks from daily use in the rough workshop environment.

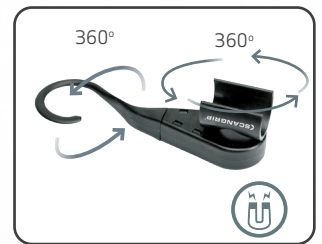

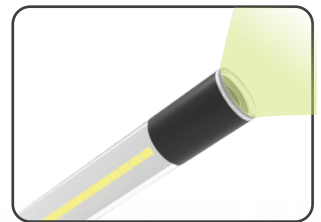

Compared to the previous model, the light output of LINE LIGHT R has been **increased from 400 lumen to 600 lumen**.

The slim design with a diameter of only Ø25mm makes it possible to illuminate even hard to reach compact areas.

By means of a built-in prism, LINE LIGHT R concentrates the light in a 75° beam angle providing an extremely bright and powerful illumination of the specific working area. Avoid blinding during work and adjust the beam angle to provide optimal work light at the specific work area.

LINE LIGHT R is made in Denmark.

- Improved light output (600 lumen) increased by 50%
- Powerful inspection light and flashlight in one
- Rechargeable with up to 4h operation time
- Sturdy and waterproof IP65
- New magnetic, electronic switch
- Ultra-slim design (Ø25mm) allows inspection in even the most inaccessible places
- Flexible positioning with adjustable hook with magnet
- Flexible gooseneck fixtures available as optional accessories
